

CS33 Homework Assignment 7

Due 11:59pm, November 4, 2022

1. We covered the *sigsetjmp* and *siglongjmp* functions in lecture (Slides XXII-4 and XXII-5). The *sigsetjmp* function saves some information in the *sigjmp_buf* data structure so that the caller's context can be restored following a call to *siglongjmp*, resulting in *sigsetjmp*'s returning a second time. What information is saved?
